CAMP MABRY ASTIR

General Fred Grant Will Be Given a Hearty Reception.

SIX DAYS PROGRAM.

United States Battery First on Ground, Coming Overland From San Antonio, Eighty-Five Miles Distant.

Austin, Aug. 17.—Camp Mabry was visited by a throng of people Sunday in anticipation of the mobilization beginning Monday. Everything is in readiness, and the troops will find the camp better than ever.

The first organization to arrive was the Seventeenth United States battery of field artillery, which came overland from Fort Sam Houston, San Antonio, eighty-five miles from Austin. Captain Hends is in command.

The field battery will be one of the features of the encampment, with its flying movements and harrowing evolutions.

It is expected that General Grant will send several other regular organizations from San Antonio, namely, one troop of cavalry, two companies of the Twenty-sixth infantry and the band of that regiment. General Grant, commanding the department of Texas, will visit the camp, and his reception will be one befitting his high rank. He will arrive Wednesday and leave Friday.

The outline of work for the camp is about as follows:

First Day, Tuesday.—Pitching of camp and preliminary instruction.

Second Day.—Company drills, extended order. Battalion and regimental drills in close formation and battle exercise.

Third Day.—Same as second day.

Fourth Day.—Field exercises. One brigade will form an outpost for the protection of the camp. Another brigade will make a reconnaissance in force to locate the enemy. At night the same brigade that formed the outpost will go through the same formation after dark in order to receive additional instructions in posting sentries for night work.

Fifth Day.—Same exercises repeated with brigades reversed.

Sixth Day, Sunday.—Devotional exercises and rest.

Seventh Day.—Sham battle. Contact of opposing forces, one brigade marching from Bull Creek to be intercepted by another brigade. Action to be fought in mountains north of camp.

Eighth Day.—Attack and defense of a convoy.

Ninth Day.—Break camp.

Lithograph Stone.

Austin, Aug. 17.—Dr. William B. Phillips, director of the university geological and mineralogical survey, has secured two fair samples of the lithographic stone to be found in Llano county, and will test them at an early day. Dr. Phillips states that there is no reason why the stone should not be as good as the best, and that if it is, the deposit will be most valuable, as the lithographic quarries in Bavaria are practically exhausted. He says the deposit in Llano is very large and accessible.

More Tax Rolls.

Austin, Aug. 17.—The controller has received the tax rolls of counties showing increases and decreases, as compared to last year, as follows:

Hale, total value, \$1,697,875, increase \$59,590; Cameron, total value \$3,275,805, increase \$129,293; Motley, total value \$1,691,064, decrease \$193,338; Van Zandt, total value \$4,832,543, increase \$377,138; Zapata, total value \$1,082,200, increase \$67,600; Hidalgo, total value \$2,445,037, increase \$174,107; Knox, total value \$1,919,672, increase \$36,326; Williamson, total value \$14,110,550, increase \$56,270; Cottle, total value \$1,627,982, increase \$81,248; La Salle, total value \$2,201,708, decrease \$86,845; Hemphill, total value \$1,307,616, decrease \$73,580.

'AN AX THE WEAPON.

A Man and Woman Killed at Shreveport by Unknown Man.

Shreveport, La., Aug. 17.—J. B. Elliott, master mechanic of the St. Louis Southwestern Railroad, and May Smith were found lying in their own blood in their home on Lake street. Both are at the hospital and the woman's death is hourly expected, while the man will recover. The man and woman were attacked by an unknown person with an ax.

The police arrested George T. Payne, a brother of the woman, and William Keenan a roommate.

AFTER THE NEGROES.

Threats of Driving Them From Amarillo—Woman Killed.

Amarillo, Tex., Aug. 17.—For some time there have been threats of running the negroes out of the town, but little has been done during the last few days. Parties went to a house occupied by John Grundy and wife, colored, and fired into the house, instantly killing Mrs. Grundy and slightly injuring a colored man who was in the house at the time. No arrests have been made.

BRILLIANT SPECTACLE

Imposing Array of Fighting Crafts at Oyster's Fight.

FOR NAVAL REVIEW.

Twenty-One War Ships Drawn Up in Parallel Columns Rest Upon the Glassy Surface of Long Island Sound.

Oyster Bay, L. I., Aug. 17.—Twenty-one warships, drawn up in four parallel columns one mile long and including some of the best fighting ships of the United States navy, resting upon the glassy surface of Long Island sound, composed a picture which lay spread out before President Roosevelt when he stepped out upon the veranda of his home at Sagamore Hill. Their brass works, shining under the slanting rays of the morning sun, gave evidence that every ship was spick and span for this the first naval review at the nation's summer capital, and probably the first ever held for the exclusive purpose of presidential honors. Commanded by Rear Admiral Barker and three other naval officers similar in rank, the fleet, comprising two squadrons, each of two divisions, besides a flotilla of torpedo boat destroyers, included representatives of every type of fighting craft, from the ponderous Illinois to the little destroyers. Two parallel columns of battleships and cruisers, headed by the Kearsarge, Rear Admiral Barker's flagship, flanked by files of destroyers, composing the North Atlantic fleet, covered the placid sound for two miles off shore from picturesque Lloyd's neck and blockading the mouth of Oyster bay, presented a splendid marine spectacle, abundantly suggestive of America's sea power. Clustered in the mouth of the bay, rested the president's yacht, the Mayflower; Secretary Moody's official yacht, Dolphin, and Sir Thomas Lipton's beautiful steam yacht, Erin, surrounded by a graceful cove of steam and sailing vessels gathered to witness the imposing ceremony when the president and fleet officials exchanged greetings.

Fairer weather for the review could not have been asked. When the president boarded the Mayflower's launch at Roosevelt's landing, the big white shapes of the war vessels between the double lines of gray destroyers loomed out through the thin haze that hung over the sound. Hardly a ripple wrinkled the surface of the water.

The Mayflower lay in the mouth of Oyster bay. Near by was the Dolphin, with Secretary Moody, Admiral Dewey and rear admirals on board.

Before the president arrived Secretary Moody, Admiral Dewey, Rear Admiral Taylor, chief of the bureau of navigation; Rear Admiral Rogers, commandant of the New York yard; Captain Brownson, commandant of the naval review; General Chaffee, Sir Thomas Lipton, Colonel E. Sherman Crawford, of the Royal Ulster Yacht club; C. Oliver Iselin, W. Butler Duncan, Woodbury Kane and Commodore Frederick C. Bourne, of the New York Yacht club, were taken on board the Mayflower. As the president stepped on the deck of the Mayflower her guns spoke the first salute. Leaving her anchorage, the Dolphin passed the Mayflower, saluting as she went by. Then the Mayflower steamed down the bay, followed by the president's yacht Sylph, having guests of the president on board.

Slowly the president's flagship moved out into the sound, where the battleships and cruisers lay in two parallel lines lengthwise the sound, with a column of destroyers flanking each line of the larger ships. The gun in the Kearsarge second battery spurted a little flash of flame and smoke, and the succession of presidential salutes then began. While the smoke was drifting from the Kearsarge's guns her hand struck up "Columbia," and her sailors gave the president a ringing cheer as the Mayflower moved by. From the bridge of the Mayflower President Roosevelt, surrounded by a group of admirals and guests, acknowledged the salutes.

ABOUT PENSIONS.

Some Statistics By United States Commissioner Ward.

San Francisco, Aug. 17.—The perfect transit arrangement is landing the G. A. R. veterans and visitors here on schedule time. Among the distinguished visitors at the encampment is United States Pension Commissioner Ward. In speaking about the pension department, he said: "Following the Spanish-American war, the department has received 75,000 applications for pensions and it now has on its roll 9209 men of that war and 3662 widows. There are still pending 35,000 applications. On Aug. 1, 1902, the bureau had on its rolls 1,000,000 pensioners, but that number has been decreased nearly 3000 men since then. All told, there were 226,000 men applications for pensions last year and the total expenses of the bureau for annual pension payments foot up \$1,000,000,000."

Mysterious Disease Among Cattle.

Dallas, Aug. 17.—D. C. Burgess, superintendent of the county farm, reports that within the last few days several farmers near him have lost cattle from a disease which he believes to be Spanish fever.

Mr. Burgess says that the animals begin to drop, dying within twenty-four hours.

"The stench even before the animals die is horrible," continued Mr. Burgess. "You can smell them forty yards away. It resembles the scent of an old water moccasin."

The Sultan Deseen tribal leader, Lanao Moros. Although professing warm friendship for Americans, the sultan recently surrounded a small detachment of United States troops paying him a friendly visit with a strong force of warriors and offered battle, his men insultingly bearing the American flag. So far the only reply from the sultan to Major Bullard's demands has been defiance.

Indigestion Cause Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and expose the nerves of the stomach, thus causing the glands to secrete mucin instead of the juice of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour rising, sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

BRYAN TEXAS, AUG. 18, 1903.

The best fair in the history of the
Central Texas Association is on.

Visitors to the fair will find a
cordial welcome and plenty of
amusement.

The daily program shows some-
thing doing all the time at the fair
grounds, and such a variety of
amusements that all will be satis-
fied.

Visitors are invited to note the
many new homes, the splendid
schools, public library, large and
modern stores and other attrac-
tions Bryan offers those seeking a
home or a market.

A representative of the "grafter"
who is getting up a "broncho bust-
ing" attraction in a neighboring
town has "posted" Marlin with his
bills. It required about two days
to do this and a twenty-line reader
in either one of the papers pub-
lished in Marlin would have reach-
ed twice as many people as will
ever see these posters. But the
"grafter" knew what he was doing,
for he induced the merchants of
the town in queasion to take space
on the poster to more than pay for
getting them out. By comparing
lists we note that very few who
have advertisements on the grafter's
poster ever advertise in the
newspapers that work 365 days in
the year for the upbuilding of
their town.—Marlin Democrat.

THE TROPICAL HURRICANE.

Visits Yucatan, and Also Sweeps
Across Portions of Mexico.

Merida, Yucatan, Aug. 17.—The ef-
fects of the tropical cyclone in this
city and in Progreso have been terri-
ble. The wind commenced in the early
hours of the night, and although every-
body had been prepared for the gale in
consequence of warnings given oppor-
tunity some time before hand, panic
quickly seized the community. The
terrible destruction wrought overthrew
the anticipated calm. Little by little
the wind increased in violence, and
soon it was tearing up great trees by
the roots, blowing roofs away and de-
stroying houses and plantations. Great
damages were done in a very short
time.

Saltillo, Mex., Aug. 17.—This section
was visited by a severe wind and rain-
storm Saturday which played havoc
with the roofs of houses and trees and
overflowed several creeks. The storm
extended along the line of the National
railroad from Saltillo to Monterrey,
washed out the track in several places,
and so severely damaged one bridge,
that traffic was entirely suspended for
several hours. Telegraph and telephone
lines were prostrated all day, but com-
munication has since been re-established.
The property loss caused by the
storm will aggregate many thousands
of dollars.

GUATEMALANS INDIGNANT.

Because of Arrest of a Prominent Per-
son by President Cordero.

City of Mexico, Aug. 17.—There is
much indignation in Guatemala over
the arrest of Reina Castillo, a nephew
of General Castillo, by order of Presi-
dential Cabrera. The Castillo family is
old and prominent, and is said to enjoy
a better social position than the Cabre-
ra family. In their more prosperous
days the Castillo family offended Cab-
rera by refusing to recognize him on
social occasions.

General Castillo is now an exile in
Salvador, and recently wrote a letter
to his nephew, Reina Castillo, asking
information regarding family affairs.
The letter was intercepted and Reina
arrested, although not at all suspected
of revolutionary purposes. He is a
popular young man, and his incarceration
on no proper grounds, causes gen-
eral indignation in Guatemala.

audiences than before he suffered from
his recent fainting fit, although the
heat is still suffocating.

pre at Bogota saying the Panama canal
treaty had been rejected by the Col-
ombian senate.

NO COUNTY ELECTION.

Judge Board Issues a Statement Regarding Local Option Matter.

To the Citizens of Brazos County, Texas:

On Saturday, Aug. 15th, 1903, the commissioners having voted two for and two against ordering an election to prohibit the sale of intoxicating liquors in the entire county, thus requiring me to give the deciding vote, I reserved the right to cast this vote Tuesday morning. The purpose in delaying this matter was to try and find out if the prohibitionists wanted a county election. After careful inquiry I find that they do not. I shall, therefore, not convene the commissioners' court, believing that a further agitation of this subject before the court at this time could result in no good. The petition for a subdivision having been passed on, I voted against the election as called for by the petition for a subdivision after due and careful consideration, for the reason that I did not believe that the petition was a legal one. I cast this vote with a full knowledge that a writ of mandamus would lie, and I sincerely hope that the prohibitionists will immediately take this matter up before Judge Scott, believing that my position will be fully sustained.

Respectfully,
A. G. BOARD,
County Judge, Brazos County.
Aug. 17, 1903.

GOLD IN OKLAHOMA

Wichita Mountains Said to Be Rich in the Yellow Metal.

NEW CRIPPLE CREEK.

Old Miners and Prospectors Rushing to the New Fields, and Early Scenes of Cripple Creek Are Re-Enacted.

Lawton, Okla., Aug. 17.—Large numbers of Oklahoma miners and prospectors of the North and West are rushing to the Wichita Mountains the last few days, where the discovery of large quantities of gold is causing as much excitement as in the Cripple Creek days.

The ore tested from the Wichita Mountains the last week assayed from \$270 to \$275 per ton. In one case a specimen produced a ton of worth \$90 which is a high figure. Mines have a sale is reported at \$80,000. Heavy milling machinery is being shipped to the scene of the mine, about twenty miles north of Lawton.

Coal Development.

Coalgate, I. T., Aug. 17.—The Southwestern Development company of this city, virtually a part of the Katy system, is preparing to extensively increase the output of coal heretofore handled from their leases at Coalgate. One mile east of the city the company now has under construction, and is sinking, one of the largest coal shafts in the southwest. This shaft is to be known as No. 12, and the specifications call for it, when completed, to be 16x7½ feet inside, clear of curbing, and 571 feet in depth. It is estimated that the company will realize from this shaft a daily output of 1000 tons, when completed and put in operation.

Warm at Chickasha.

Chickasha, I. T., Aug. 17.—Sunday was the hottest day of the summer at Chickasha, the thermometer registered 115 and the humidity made it almost suffocating, scarcely a breath of air stirring all day.

EARTHQUAKE SHOCK.

Wakes Up Residents of Alton, Ill.—Also Felt in St. Louis.

Alton, Ill., Aug. 17.—An earthquake shock was felt here at 4 o'clock Sunday morning. Most of the residents were awakened. The shock shook a quantity of plastering loose in the Methodist Episcopal church. At East Alton bricks were shaken from several chimneys, and glass was broken from several windows. The shock lasted nearly eight seconds.

St. Louis, Aug. 17.—An earthquake shock, which lasted for several seconds, was distinctly felt in all parts of St. Louis at 4 o'clock Sunday morning. No damage has been reported.

Vesuvius Eruption Increasing.

Naples, Aug. 17.—The eruption of Vesuvius has somewhat increased. The stream of lava flowing from the crater is divided into two branches. The longer reaches a distance of 2500 feet toward Pompeii. There is no immediate danger.

A SAD TRAGEDY.

An Evangelical Pastor Killed by Accidental Discharge of Gun.

Bonham, Tex., Aug. 17.—A tragedy was enacted here Sunday that has cast a gloom over the entire city. Rev. R. L.

Painting the Capitol

No piece of exterior painting during the past decade has attracted more favorable attention than which is soon to be completed on the National Capitol. Some fifteen hundred gallons of paint will be applied by a force of eighteen men working about two months. The job is fraught with dangers and difficulties owing to the very irregular contour of the architecture. The paint used is of the ready mixed order, and was specially prepared by Messrs. HARRISON BROS. & Co., Inc. It is said that the firm was aided in securing this valuable contract by the fine reputation enjoyed by their "TOWN & COUNTRY" brand of ready mixed paints. That the Capitol looks much better than it has in many years is a matter of much comment in Washington. It is said that one of the best known architects in the country was so impressed by the improved appearance of the Capitol that he sent congratulations to the Messrs. Harrison on the excellent quality of the paint.—From the Paint, Oil and Drug Reporter, July, 1903.

LOCAL OPTION DECISION.

Court of Appeals Refuses Writ of Injunction in Robertson County. Austin, Aug. 17.—The court of civil appeals, sitting in vacation, heard the argument in the Robertson county local option case, after which the court refused to grant the writ of injunction asked for. The action of the court lowers the officers of Robertson to enforce the law until they are finally disposed of.

Judge Streetman, the court of Austin, Aug. 17.—The court of civil appeals, sitting in vacation, heard the argument in the Robertson county local option case, after which the court refused to grant the writ of injunction asked for. The action of the court lowers the officers of Robertson to enforce the law until they are finally disposed of.

El Paso, Aug. 17.—Application to the state department to extradite El Paso to answer the charge of theft. The Williams girl is accused of stealing diamonds and is now in custody in the City of Mexico.

A CALIFORNIA MYSTERY.

Pleasure Excursionists Missing—One Becomes a Maniac.

Santa Barbara, Aug. 17.—Miss Katherine Grathwol of St. Paul, Minn., is dead; Frederick Lueders, an artist of this city, is a raving maniac, and Fred Webster, Nellie Stone, Fred Gilbert and Grace Porter, also of this city, cannot be located, and at this time a mystery surrounds the whole affair. The party left here for a day's picnic on Summit mountains, which is reached by the Lumber trail. Frederick Lueders returned to town and reported that Miss Grathwol was dying, but he was so exhausted that no particulars could be learned. A party left for the scene and Lueders followed them. They returned later with Lueders, who they found at the foot of the grade a raving maniac and who could give no account of the whereabouts of the rest of the party. Efforts of searchers so far have been fruitless in finding any trace of the lost excursionists. Miss Grathwol was staying in Santa Barbara for her health and was only twenty-four years old.

A RELIGIOUS TRUST.

A Chicago Minister Advocates a Combine of Church Forces.

Chicago, Aug. 17.—A "trust" in religious forces to bring about economies in soul-saving after the manner of the commercial world has been advocated by the Rev. Bruce Brown in the North Side Christian church.

"It is high time there should be a trust in religious forces and resources," he said. "Our present methods tend to multiply churches in respectable communities and to leave the slums destitute of church privileges."

"We build so many churches among the comparatively good people that we have no money left to preach the gospel to the poor. The millennium will never dawn on a divided church. The kingdoms of this world will not be made kingdoms of God by any sect or schism. Our usefulness and efficiency and influence would be magnified many fold if we would cease multiplying churches where they are needed the least and use the money for building churches where they are needed the most. I am in favor of a religious trust."

KANSAS RIVER RISE.

Current Sweeps Away Street Car Bridge Between Kansas Cities.

Kansas City, Aug. 17.—The first serious damage from the present rise in the Kansas river at this point has occurred. The James street bridge, the only means of street car traffic between the two Kansas Cities, gave way. The bridge had been weakened by the high water and could not stand the force of the great mass of driftwood carried in from the west by the swift current. Other structures, including the stock yards and felt line bridges, are in imminent danger. The river continues to rise.

FIVE GIRLS DROWN.

Children Out Boating at Richmond, and Boat Capsizes.

Richmond, Va., Aug. 17.—At Lurich's station, Giles county, while a party of children, one boy and seven girls, ranging in age from eight to fifteen years, were boating the boat capsized and five girls were drowned.

Mistaken For a Burglar.

Paducah, Ky., Aug. 17.—Fred Iverlett was probably fatally wounded at an early hour by Mrs. Mary Crockett, who mistook him for a burglar. Iverlett went home late, and was walking by his sister's room, when she fired. Iverlett was married a few days ago.

NEWS IN BRIEF.

A new cycling record was made at Paris Sunday, where 50.398 miles were covered in one hour.

R. D. King, formerly of Dallas, has been assassinated in Huachuca, Mexico. No details of the tragedy.

In a trolley car collision at Kansas City two persons were probably fatally injured, four seriously hurt and a dozen others bruised.

The United Garment Workers of America finished their work at Indianapolis and will hold next year's convention at Buffalo.

A. R. Swallow, an old pioneer of Parker county, one of the few who fought battles with the Indians in the early days, is dead at Weatherford, Tex.

At Chicago Sunday the police arrested seventeen automobile sports for speeding more than twelve miles an hour. The ordinance limit is eight miles an hour. Moses Pollock, said to be the oldest publisher and book seller in the United States, is dead at his home in Philadelphia. He was born in 1817 and spent seventy-two years in the book business.

"DECEASED" by President

The Times, Aug. 17.—President delivered the principal address at the quarterly meeting of the Holy Name of Brooklyn Long Island, held here Sunday. The ceremony of speech and conduct constituted the theme of his address, which was enthusiastically applauded by the audience of more than 2000 persons, chiefly men. During the afternoon special trains brought hundreds of members of the society to Oyster Bay from Brooklyn and western Long Island.

CHINESE EXCLUSION.

New Regulations Governing Their Entry to the United States.

Washington, Aug. 17.—A new set of Chinese regulations has been prepared by Commissioner General of Immigration Sargent and approved by Secretary Cortelyou of the department of commerce and labor, the jurisdiction of the matter of exclusion of Chinese having been transferred from the treasury to the latter department. These rules designate what Chinese persons are permitted to land at ports of the United States under the provisions of the laws and treaties together with the ports at which Chinese other than diplomatic and consular officers may land, and name the officers who have been vested with the power and authority heretofore conferred on collectors of customs, giving their stations and jurisdiction.

Conditions are named to which every Chinese person seeking admission into the United States under the provisions of the act of 1902, for the purpose of taking part in any fair or exhibition authorized by congress.

CONCILIATION BOARD.

Some Causes of the Deadlock in the United Mineworkers' Case.

Scranton, Pa., Aug. 17.—District President D. T. Nichols of the United Mineworkers, a member of the conciliation board, denies that the question of the employers' right to discharge for any reason other than membership in a labor union is the primal question of which the board is deadlocked, and he requested the appointment of an umpire.

The demand of the rockmen's union that its members share in the award of the commission is the main part of the dispute, Mr. Nichols says.

Other points on which the conciliation board is deadlocked are the alleged maintenance of a "blacklist" by the Lehigh Coal and Navigation company, and the alleged breaking of an agreement entered into by Cox Bros. of the Hazleton district when their employees returned to work after the lockout which followed the award of the strike commission.

Still another point on which there is a deadlock is over the case of an individual engineer who worked twelve hours before the award, and ten hours now. He claims the same wage as he earned before. The settlement of this case will establish an important precedent.

TURKO-RUSIAN MUDDLE.

Russia Proceeding Without Any Consent, and Expects Satisfaction.

St. Petersburg, Aug. 17.—The Russian press does not lay emphasis on the dispatch of a division of the Russian Black sea fleet to Turkish waters, merely repeating the official statement without comment. The Novo Vremya, in an outspoken editorial, says: "Bitter experience has shown the utter uselessness and disadvantage of all concerted measures. Now, since the murder of M. Rostowski does not concern Europe, we are proceeding without any concert, and therefore we can more confidently predict complete satisfaction for our demands from Turkey."

British Ambassador Cites the Porte. Constantinople, Aug. 17.—The British ambassador has called the attention of the porte to the serious situation in Macedonia. He pointed out that grave consequences may attend fresh murders of consuls or foreign subjects. The ambassador had an audience with the sultan.

Turks Affect Ignorance.

Constantinople, Aug. 17.—The officials here affect ignorance of the news that Russia is sending a squadron to Turkish waters. Official reports assert that the insurgents, when they occupied the town of Krushevo, massacred all the Turkish functionaries. The recapture of the town was effected by three Turkish columns, operating from different points. The bombardment by the Turkish artillery exploded a number of dynamite mines behind the rebel entrenchments, causing considerable damage.

The Sultan Buying Krupps.

Constantinople, Aug. 17.—The Ottoman government has concluded negotiations with the Krupp works for the supply of thirty-two batteries of quick field artillery, each consisting of sixteen guns.

BULGARIAN MEMORANDUM.

A Category of Murder, Torture, Incendiarism and Pillage. Sofia, Bulgaria, Aug. 17.—In the memorandum the Bulgarian government presented to the powers setting out at great length the condition of affairs during the past three months in Macedonia since the Turkish government undertook to inaugurate the promised reforms, the most precise details, dates, places and names of persons are given, the whole constituting a terrible category of murder committed by the Ottoman soldiers and officials. These particulars were obtained entirely from official sources, such as the reports of the Bulgarian consuls and agents of the Bulgarian government, and in many instances the reports made by Turkish authorities. The Bulgarian government guarantees the absolute truth of every statement, and challenges the porte to disprove a single charge made in the memorandum.
